New Solar Homes Partnership Training & Classes Training Events

July 08, 2010
[New Training Workshop Opportunity - New Solar Homes Partnership](#)

WebEx instructions are now available through the workshop link above.

WebEx Tutorial Training Files

The New Solar Homes Partnership provides online training through WebEx tutorials. These tutorials were created as an additional training aid for the NSHP Web Tool application process. Please refer to the NSHP Guidebook and NSHP Help Manual for additional detailed information.

Please note: No software is needed; The WebEx player is automatically installed when you click the link to begin playback. Problems with playback? Please contact WebEx technical support at 1 866-229-3239.

**California Energy Commission's
NEW SOLAR HOMES PARTNERSHIP**

Homepage [Instructions](#)

At the direction of Governor Schwarzenegger, the California Solar Initiative was approved by the California Public Utilities Commission (CPUC) on January 12, 2006. The initiative creates a \$3.3 billion ten-year program to put solar on a million roofs in the state.

This program changes the way the state's renewable energy incentives and rebates will be managed. The CPUC will oversee a program to provide incentives for existing residential customers and for all non-residential customers.

The California Energy Commission will manage a 10-year, \$400 million program to encourage solar in new home construction, known as the New Solar Homes Partnership (NSHP).

The Energy Commission will work with builders and developers to incorporate high levels of energy efficiency and high-performing solar systems to help create a self-sustaining solar market where home buyers demand energy efficient, solar homes. The NSHP will specifically target single family, low-income, and multi-family housing markets.

Web Tool Structure

- Account: A relationship established between the user and a web tool. The account is necessary to access the web tool.
- Associates: The parties involved with the project.
- Project: The NSHP application. At the project level, you are entering the reservation details for the application.
- Site: The residential building the PV system will be serving. At the site level, you are entering the specific details of the system.
 - For a custom home application, this is one project with one site.
 - For a large development application with 50 homes receiving solar, this would be 1 project with 50 sites.

Tips

- The web tool will now send out automatic reminders when your project is close to expiring.
 - Just make sure that your e-mail is entered into the database and you'll receive it.
- After creating an account, it is recommended that you immediately change your login and password in the 'My Profile' section linked at the top of the page.

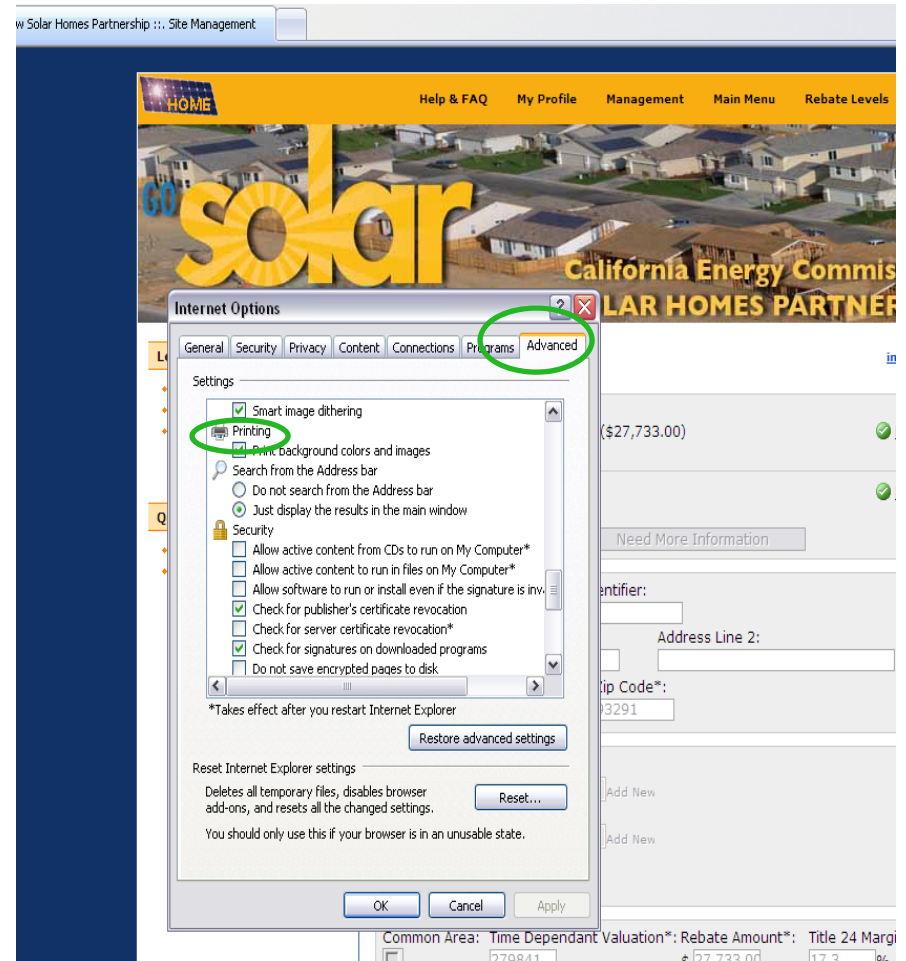

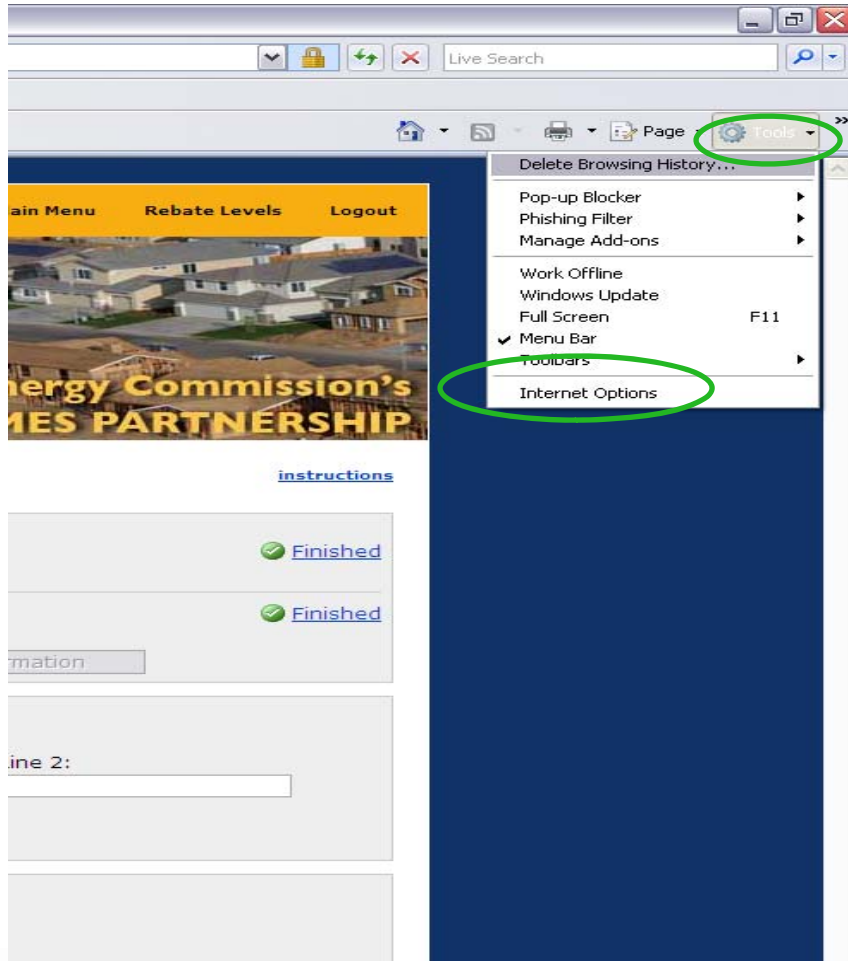

Frequently Asked Questions

- How do I get the NSHP-2 to print out like in the NSHP Guidebook?
 - Go into the Tools link on the web browser. Click on Internet Options. Click on the Advanced Tab on the right side of the box. Scroll down to the printing section. Click on the 'Print background colors and images' box. Click on 'Ok'.

Printing out the NSHP-2
